💼 EXPERIENCE

Software Engineer   Mar 2023 — Oct 2023

Greek Armed Forces IT Corps — Athens, Greece

- Held a part-time position as a software developer during mandatory military service.
- Developed and maintained the military's internal software systems.
- Provided technical support to system users, addressing inquiries and troubleshooting issues.

Software Engineer   Oct 2020 — Dec 2022

Terracom S.A. — Ioannina, Greece

- Played a pivotal role in the development, maintenance, and evolution of the patrol and security management platform QR-Patrol.
- Actively participated in technical analysis and system design processes, contributing to enhance project outcomes.
- Engaged in team meetings to synchronize efforts and maintain alignment with project goals, while maintaining close collaboration with team members to implement updates and improvements.

Mobile Application Developer   Dec 2021 — Jan 2022

Freelancer — Ioannina, Greece

Developed a mobile application utilizing:

- Ionic Framework with Angular for the FrontEnd: Engineered responsive and feature-rich user interfaces for both Android and iOS.
- Apollo GraphQL and nestJS for the BackEnd: Implemented efficient data handling and processing capabilities.
- Deployment on DigitalOcean using Docker containers: Optimizing packaging and deployment processes.

Software Engineer Intern   Jul 2019 — Oct 2019

CoTheta — Ioannina, Greece

- Engaged in virtual and augmented reality projects using Unity3D.
- Contributed to the creation of interactive experiences.

🎓 EDUCATION

Integrated Master in Computer Science and Engineering   Feb 2014 — Apr 2022

University of Ioannina — Ioannina, Greece
