- SQL (PostgreSQL, MySQL, SQL Server)
- MongoDB

Cloud & DevOps

- Docker
- Azure

LANGUAGES

- GreekNative
- EnglishAdvanced

EDUCATION

Integrated Master in Computer Science and Engineering

University of Ioannina, Ioannina, Greece
Feb 2014 – Apr 2022

EXPERIENCE

Software Engineer

Nov 2025 – Present

Indeavor · Remote, full-time

- Build backend services with .NET 10, EF Core and PostgreSQL.
- Contribute to microservices-based systems and web applications.
- Package and run services with Docker, consistently across environments.
- Write automated tests with xUnit in a remote, product-focused team.

Software Engineer

May 2024 – Nov 2025

PwC Greece · Trikala, Greece

- Developed web applications with .NET 8, Blazor Server and ASP.NET MVC, building responsive UIs with MudBlazor and JavaScript.
- Worked with SQL Server using stored procedures and raw SQL for complex queries; managed data access with Entity Framework Core.
- Integrated Hangfire for task scheduling and email notifications.
- Managed the full development lifecycle in Azure DevOps, including CI/CD pipelines and project tracking.

Software Engineer

Mar 2023 – Oct 2023

Greek Armed Forces IT Corps · Athens, Greece · Mandatory military service

- Developed and maintained internal software for day-to-day operations.
- Provided technical support to end users and troubleshoot issues.
- Improved and upgraded critical applications.

Software Engineer

Oct 2020 – Dec 2022

Terracom S.A. · Ioannina, Greece

- Core developer of QR-Patrol, a security management platform.
- Took part in technical analysis and system design.
- Collaborated with the team to plan work, ship updates and improve the platform.

Mobile Application Developer

Dec 2021 – Jan 2022

Freelancer · Ioannina, Greece

- Built the Android/iOS app UI with Ionic Framework and Angular.
- Implemented the backend with NestJS, Apollo GraphQL and MongoDB.
- Deployed it in Docker containers on DigitalOcean.

Software Engineer Intern

Jul 2019 – Oct 2019

CoTheta · Ioannina, Greece

- Developed VR/AR projects with Unity3D, creating interactive experiences.
